Henrietta House - CBRE's European Head Office to receive SecuriGroup personnel

## SecuriGroup Continues to Expand in London

SecuriGroup is delighted to announce the addition of several new prestigious corporate sites to its portfolio. These successes follow from the company's investment in a new office space, as well as the relocation of Operations Director Allan Burnett QPM to London.

SecuriGroup has strengthened its relationship with long-time client and partner CBRE through the addition of their European Head Offices at Henrietta House and Paternoster Row. Both sites hold significant importance for CBRE, as they play host to their central operations in the UK and Europe and are positioned in key areas within the City.

Furthermore, SecuriGroup has been appointed by the property management company Ashdown Phillips, to deploy bespoke security guarding solutions to two sites in London, with scope for adding further sites to the initial contract. SecuriGroup completed mobilisation for the Shepherds Building in Shepherd's Bush and to 42-48 Dover Street in the first week of December, and will establish a bespoke service for Ashdown Phillips, tailoring the security solution to meet the needs of the sites.

Both appointments are representative of SecuriGroup's greater push for a wider client base in the UK capital. As SecuriGroup's reach expands, demand for the company's services has increased across London and the wider UK, which is now accounting for multiple clients in a variety of sectors. Ashdown Phillips now joins an extensive and prestigious list of London corporate guarding clients such as Dunhumby, Workman, IO, VMware and the Southbank Centre.

### London Universities Framework

Adding to our client base in London, the London Universities Purchasing Consortium (LUPC) has chosen SecuriGroup as one of a select few approved suppliers to provide guarding and reception solutions to a host of prestigious universities, colleges, galleries, and museums across Greater London.

LUPC represents a number of organisations from the education, arts and sciences sectors and shares invaluable industry guidance on matters concerning finance, procurement, training and service.
