The Security Framework with Scotland Excel

SecuriGroup have been named an approved

supplier for the security requirements for 32 Local Authorities in Scotland. The framework includes security guarding, technological security solutions, event security and marshalling. SecuriGroup will be covering all aspects of security throughout Scotland. The framework agreement is the largest of its kind and has been driven by Kenny MacAskill's announcement that public money spent on security must be spent with an SIA Approved Contractor.

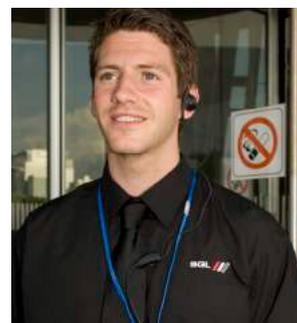

MD joins Security Alliance Governance Board

SecuriGroup Managing Director, Russel Kerr, has accepted an invitation to join the Governance Board of The Security Alliance. The Alliance is a coalition

of companies and membership organisations which represents over 80% of the UK's security industry. Its initial task was to lobby Government for time and space to consult with the SIA and the industry on the future of regulation. The Alliance is now acknowledged by both the Home Office and SIA as a valued stakeholder during the transition to a new regulatory regime.

Staff Survey Results

The most recent Staff Survey has shown that internal communications and administration are at the highest ever level. It also showed that the staff placed great value on the opportunity to work at the high quality clients available throughout SecuriGroup's UK portfolio. SecuriGroup

understands the importance of these results and will use all of the feedback to continue to develop the organisation.
